Channel Partner Overview

Data & Cloud Solutions for the Mid-Market — Backed by ACI Infotech

Who We Are

Vertis Global is the mid-market arm of ACI Infotech

We deliver enterprise-grade data platforms, cloud migrations, analytics, and AI solutions — scoped for companies doing \$10M–\$200M in revenue.

Your clients get the depth of a 1,250-person technology firm without the big-consultancy overhead. Senior engineers architect and build — no bait-and-switch with junior teams.

Every engagement is fixed-scope, transparent, and designed to leave the client self-sufficient.

Weeks per Engagement

The Market Opportunity

Mid-market companies (\$10M–\$200M) are the fastest-growing segment for data and cloud services — but most are underserved.

Data Consolidation

80% of mid-market firms still run on fragmented tools — Salesforce, QuickBooks, spreadsheets — with no unified data layer.

Cloud Optimization

Companies that migrated without a plan are overspending 25–40% on cloud. They need architecture, not more infra.

Analytics Demand

Executives want self-service dashboards and real KPIs, not weekly spreadsheet exports from an analyst.

AI Readiness Gap

Everyone wants AI, but fewer than 20% have the data foundation to make it work. They need the plumbing first.

Data Platform Build

Central source of truth connecting all client systems into a modern, governed data warehouse.

What We Deliver

- Data warehouse (Snowflake, Databricks, BigQuery, Redshift)
- Automated pipelines from CRM, ERP, ecommerce, marketing
- Data quality checks & governance framework
- Full documentation & team knowledge transfer
- Vendor-neutral — we recommend what fits the client

Partner Co-Sell Value

- Drives Snowflake / Databricks / BigQuery consumption
- Typical 8–14 week engagement = fast time-to-value
- Lands a long-term data platform the client grows into
- We handle delivery — you stay the trusted advisor

Cloud Migration & Optimization

Right-sized cloud architecture — from on-prem migrations to cost optimization of existing environments.

What We Deliver

- Infrastructure assessment & migration roadmap
- Cloud architecture design (AWS, Azure, GCP)
- Zero / minimal downtime migration execution
- Cost optimization — typically 25–40% savings
- Security & compliance review

Partner Co-Sell Value

- Directly increases AWS / Azure / GCP consumption
- Cost optimization builds trust & prevents churn
- 6–12 week engagement — quick win for partner pipeline
- Certified architects across all three hyperscalers

Analytics & Dashboards

Self-service BI and automated reporting that puts data in the hands of decision-makers.

What We Deliver

- BI platform setup (Tableau, Power BI, Looker, Metabase)
- Executive dashboards with KPIs that matter
- Automated reporting & alert pipelines
- Team training for full self-sufficiency
- Data modeling & semantic layer design

Partner Co-Sell Value

- Drives Tableau / Power BI / Looker license expansion
- 4–8 week quick-wins — great for pipeline velocity
- Natural upsell path to data platform build
- Visible ROI that strengthens the partner relationship

AI & Automation Quick Starts

High-ROI AI solutions that work because the data foundation is right — not moonshots.

What We Deliver

- AI readiness assessment & roadmap
- Demand forecasting & customer segmentation models
- Document processing & workflow automation
- Internal AI assistants & knowledge bots
- MLOps setup for production deployment

Partner Co-Sell Value

- AI is the #1 conversation in every account — lead with it
- Often requires data platform first = larger deal size
- 6–10 week engagements with measurable outcomes
- Positions partner as AI-forward, not just infra

Technology Ecosystem

Vendor-neutral. We recommend what fits the client — and that means more flexibility for your co-sell motion.

CLOUD PLATFORMS

Amazon Web Services (AWS)

Microsoft Azure

Google Cloud Platform (GCP)

Looker

Metabase

How We Engage

Fixed-scope, outcome-driven engagements — no open-ended retainers, no surprise change orders.

01

Discovery

Assess current state, define scope, identify quick wins vs. long-term.

02

Architecture

Design the solution with the client. No black boxes.

03

Build & Deliver

Senior engineers build it. Weekly demos. No surprises.

04

Transfer & Support

Docs, training, handover. Client owns everything.

Senior-Led

The architects build it. No hand-offs to juniors.

Fixed Scope

Price and scope agreed upfront. Period.

Self-Sufficient Exit

We leave. Your team runs it.

Why Partner With Vertis

ACI Infotech Backing

1,250+ person firm, 20 years, 80+ Fortune 500 clients. Your referral is in safe hands.

We Don't Compete With You

We're a delivery partner, not a platform. We drive consumption on YOUR stack.

Fast Engagement Cycles

4–16 week fixed-scope projects. Fast pipeline velocity, fast time-to-revenue.

Vendor-Neutral Architecture

We build on whichever platform your client needs. AWS, Azure, GCP — your call.

Clean Partner Handoffs

We leave the client self-sufficient and on your platform. No stickiness play from us.

Mid-Market Sweet Spot

We serve the \$10M–\$200M segment that's too small for Deloitte but too complex for freelancers.

When to Refer Vertis

Quick reference for your account teams — these are the signals that a client is a fit.

IDEAL CLIENT PROFILE

- \$10M–\$200M revenue, 50–500 employees
- Data spread across 5+ disconnected tools
- Cloud bill growing without clear ROI
- No in-house data engineering team
- Asking about AI but lacking the foundation
- Outgrown their starter tech stack

TYPICAL BUYER TITLES

- Founder / CEO — knows data is a mess, needs a plan
- VP Operations — drowning in manual reporting
- Head of IT / Fractional CTO — tasked with modernizing
- CFO — cloud bill doubled, wants answers

Let's Build Together

We make your referrals look good. Senior-led delivery, fixed scope, and clients who stay on your platform.
